

## FLEXIBLE CONNECTORS & VAPOUR HOSE

### FlexTech Stainless Steel Flextube Hosing

Stainless Steel metal hose assemblies with carbon steel ends are used to prevent damage to piping systems caused by vibration, thermal expansion and misalignment. Suitable for use with NH3 and Propane.

**Features:**

- Carbon Steel schedule 80 ends, available in Male or Female Pipe (NPT) and Butt Welds (BW) with 150 or 300 Lbs ANSI flanges.
- Meets the requirements of standard CR96-001, accompanied by CSA permanently attached metal band label.
- Wire-braid stainless steel reinforcements over convoluted stainless steel hose.
- Available in diameters from 3/4" to 3", with fittings welded each end.
- All hoses to be tested at applicable standard per range, for 1 minute minimum.

**Range: 3/4", 1", 1-1/4", 1-1/2", and 2" D**

- 275 PSIG maximum working pressure (150# flanges)
- 350 PSIG maximum working pressure (300# flanges)
- All are single braid SSB using our standard braid.

**Range: 3"\* D**

- 250 PSIG maximum working pressure (All end connections).
- 3" D SS2Braid

**Note:** Contact NEE for sizes not listed. To order assemblies, supply NEE with your over-all length and end connection configurations.
